# Digital Signage

Seeing is believing. Communicate your message to any screen, of any size, anywhere. That's the promise of the Korbyt Anywhere publishing platform, with its ability to re-energize content as personalized, easy to create and quick to distribute. Engage your workforce, inform customers or students, and drive engagement.

Thursday	10°C	5°C
Friday	10°C	4°C
Saturday	10°C	4°C
Sunday	10°C	5°C

**The COVID-19 Mask Initiative | Donate Mask**

We know many in our community want to support our staff members during the COVID-19 pandemic.

We are asking community members to sew or buy and donate cloth face masks for employees, patients and visitors to wear while on-site during this crisis.

# Data Visualization

Show real-time sales performance, calls-in-queue and issues resolved as a clear, actionable display. Our data adapters connect to over 100 enterprise sources to deliver key information as a story that can lead your teams to greater productivity.

# Adapting to Your Data Needs

A Korbyt Anywhere data adapter connects to data from any source and visualizes it to display on any screen in your workplace.

- › Choose from hundreds of data sources, including Salesforce, ZenDesk, ServiceNow and more
- › Integrate securely with any other enterprise system using RESTful APIs, web services, and custom integrations

# Built for Performance Management

Performance management is more effective with Korbyt Anywhere's Builder: a content management system feature that formats your data with visual appeal for any screen.

- › Design how data appears on your screens to ensure clarity, drive action and promotes improved performance
- › Target data and performance metrics to employees based on teams, job type, location and other attributes
- › Format, style and change the look across different digital signage screens, desktops, web browsers and mobile devices

# The Measure of Success

Automated performance management analyzes the data and messages that drive your teams to succeed.

- › View data by an individual or across a whole group, team or company
- › Report to leaders how visualized data influences employee productivity outcomes
- › Roll up departments, locations, teams and more into one meaningful KPI based on value added data calculations
